

**Leaderonomics**  
*The Science of Building Leaders*

“Growing People into Leaders, Building Communities through Love, Transforming the Nation!”

## **Web & Multimedia Designer Wanted**

People who never stop learning continue to grow day by day. We believe that learning and sharing of knowledge should be fun, interactive and able to capture the audience and bring them into a world of possibilities, opportunities, new ideas, transformational situations and self discovery.

If you have a passion to give your audience a learning experience via multimedia and web that they will never forget, we want you!

### You will :

- Create fun, exciting and interactive multimedia products that would deliver leadership learning to people of all ages from kids to youth to adults and senior citizens
- Build new, innovative and latest trends into your multimedia products that enables our learning leaders, youth leaders, sales team, online social networks and media team to enhance their physical delivery of leadership development programs across all organisations
- Listen, Capture and Design internal and external clients’ thoughts to bring to life their imaginations via multimedia tools/products to deliver their message to their customers.

### You must:

- Be someone who loves fun, knows how to have fun and knows how to incorporate fun in your multimedia products.
- Be adept in multimedia applications for web sites, games, 2D/3D animation, cogitations with a creative Flash interface, motion design, videos and films
- Be passionate about delivering key leadership messages through your creations and helping your internal and external clients achieve their goals through your productions.
- Be able to engage, influence and convince different stake holders, i.e. corporate, service providers, trainers, youth leaders etc.
- Have a flair of creativity, ability to conjure new ideas, daring to try new revolutionary concepts... all within a reasonable budget of course (ie, commercial viability)
- Be Proactive & Initiative and Able to work independently with minimal supervision

- Be able to communicate comfortably at least in English, Bahasa Malaysia and more.
- Be able to deliver and execute on commitments.
